TRADE DESCRIPTIONS ACT

We are continually improving our products, so specifications or design changes may be made during the lifetime of this catalogue. Colour photography and printing are as accurate as possible but slight variations in colour must be expected.
All measurements are approximate.

RECYCLING

Please help us minimise the effect we have on the environment by recycling.

All dimensions in millimetres unless otherwise specified.

All Prices in EUR Ex VAT, E&OE.

Quite simply, for every desk we sell, we will plant a tree.

We are an environmentally aware and an environmentally sustainable company.

We are delighted to announce the launch of our Plant–a–Tree (PAT) initiative.
Quite simply, for every desk we sell, we will plant a tree.

We have developed an exciting partnership with Trees On The Land, where we will plant native Irish trees for every desk sold. We will fund the planting of a tree for every desk you buy.

Last year our supplier sold approximately, 10,000 desks and they are on target to sell even more this year! This will mean that more than 10,000 native Irish trees will be planted.

These trees will be planted at selected sites in and around Co. Cork and in February 2020, Staff members will be rolling up their sleeves to help plant the trees.

A word about our partner…
Trees on the Land is a cross-border initiative working to establish young native trees across the Republic of Ireland and Northern Ireland. Trees on the Land are a registered charity who work with farmers, smallholders, community groups, councils, schools, colleges and many other landowners to coordinate sites to accommodate trees. Trees are planted as small woodlands, coppices, orchards, hedgerows, shelterbelts, agroforestry projects, reforestation projects, and larger woodlands.

Forests play an important role in helping fight climate change – Ireland's forests and wood products removed 4.3 million tonnes of carbon dioxide from the atmosphere in 2015. Tackling climate change is in everybody's interest. We are an environmentally aware company which is proactive in its approach to safeguarding the environment and in playing its part in tackling climate change.

ASHFORD

Ashford combines looks and practicality with outstanding durability at an affordable price.

Metal legs are manufactured from 16 gauge steel, powder coated in silver. All desk tops and panel legs are constructed from E1 grade heat and scratch resistant 25mm melamine panels.

KOMO

With a variety of desk sizes, Komo is a highly flexible system which allows for a multitude of workstation configurations. Cable managed legs, optional cable baskets and CPU holders provide discreet cable management.

Metal to metal fixings allow for simple re-configuration, whilst elegantly curved tops complete with pearl nickel aluminium portals, add that all important finishing touch.

GUARANTEE 10 YEAR

KOMO CRESCENT DESK

Pictured here is a 2 person configuration using 1600 x 1200mm desk with pedestal.

A complete range of matching pedestals, filing & storage units are available. See page 53.

FEATURES

- 25mm Tops.
- Formed steel legs with integrated internal cable management. Powder coated in high resistant silver RAL9006 paint.
- All paint used is completely solvent-free and offers up to 99% material utilisation. Consequently, this coating method is incredibly economical and, at the same time, eco-efficient.
- Legs and tops are joined with metal to metal fixings which add extra strength and allow for simple reconfiguration.
- 2 Aluminium Desk Top Cable Portals per Desk.
- Adjustable feet on all items.
- Impact protective edging.
- E1 grade panel with Environmental certification.

REDUCE NOISE WITH OUR IMPRESSIVE ACOUSTIC RANGES

LEAP

Leap is an electrically adjustable range of desking comprising of a single sit stand desk & bench desk system. Our frames can be expanded to accommodate tops from 1200mm to 1800mm in width and electronically adjusted from 595mm to 1245mm in height, all at the touch of a button with the touch sensitive controls.

Each user can adjust their own desk height individually via the memory master control unit.

Leap also features anti-collision software meaning if it encounters an obstruction as it is going up or down it will stop and retract 2cm. Leap is test certified to EN527-1 and EN527-2.

GUARANTEE 7 YEAR

Touch control memory controls lets the user set 3 predefined heights, which can be recalled with the touch of a button.

FEATURES

- Height min. 595/max.1245mm, Stroke 650mm.
- Speed 40mm/s.
- Width adjustable 1080 - 1800 mm.
- Lifting Power - Distributed Load of 125Kg.
- Noise < 50 decibels.
- Six Axis Anti Collision.
- WEEE Certified.

GUARANTEE 7 YEAR

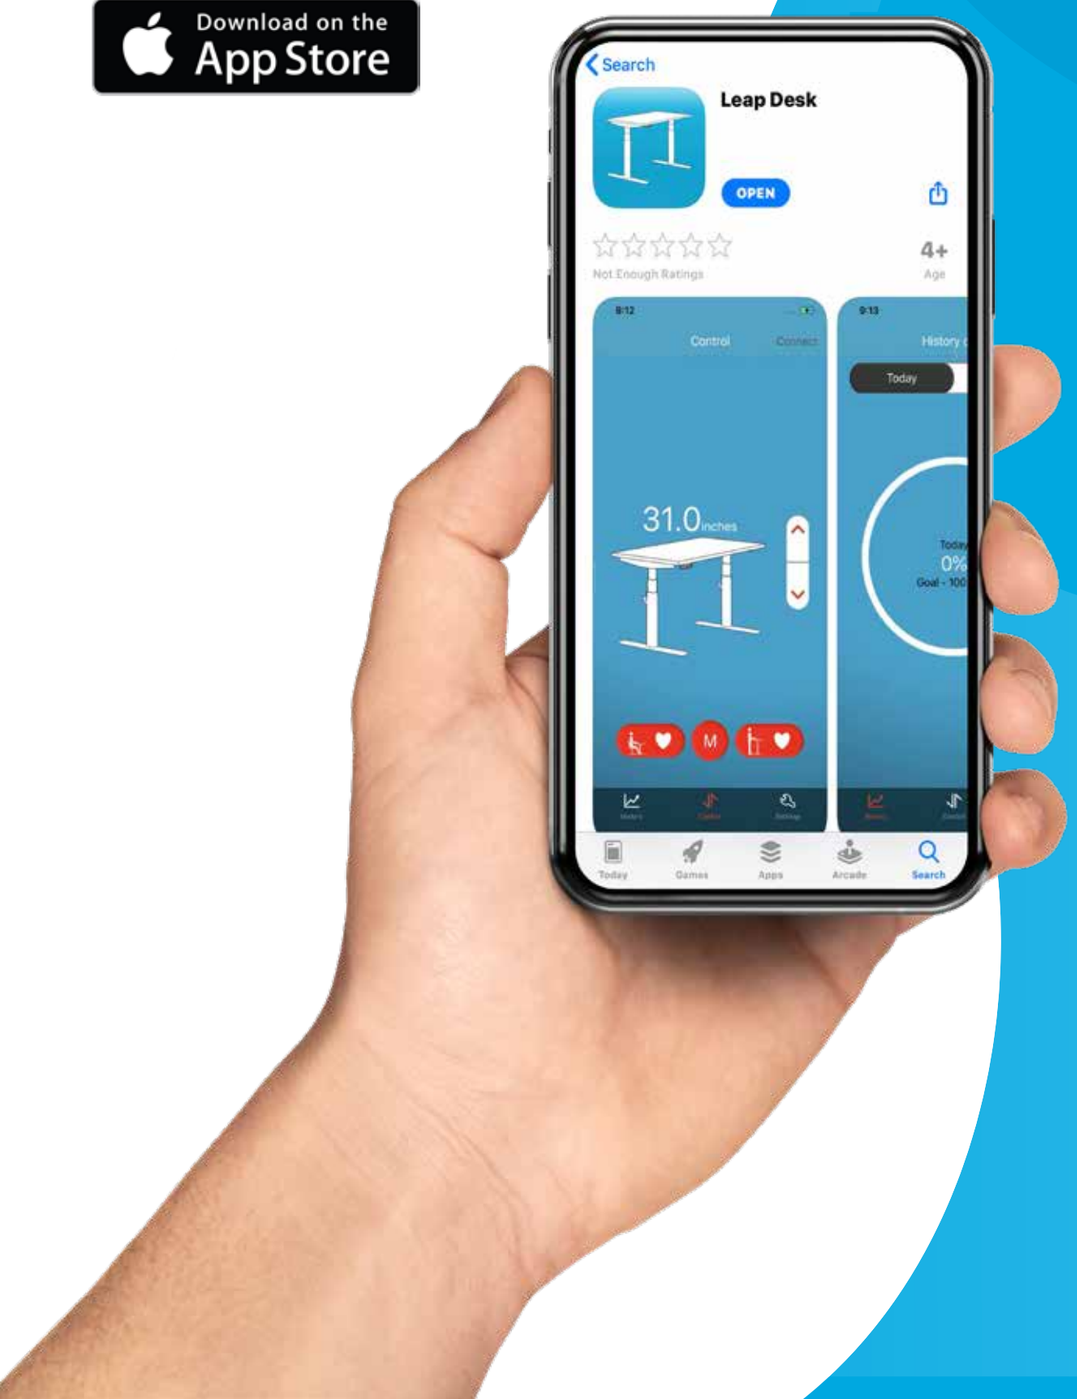
LEAP APP

DOWNLOAD NOW - SEARCH “LEAP DESK”

GET IT ON Google Play

Download on the App Store



Download the free Leap App and take control of your desk height through your phone.

The Leap App includes the following features:

- **Adjust the desk height**
- **Set memory positions**
- **Create daily standing goals**
- **Track your daily standing progress throughout your work day**
- **View your historical data**
- **Set sedentary reminders**

To get started simply search for “Leap Desk” in the App store or Google Play.

Once downloaded you can connect the app by pairing with the desk dongle. The App and dongle are easily connected through Bluetooth.

For more information please contact a member of our sales team.

ZOOM

Zoom desking is a new addition to our Health and Wellbeing range. Zoom Desks can be adjusted in height between 685mm – 1185mm by using the desk handest which has two buttons – to move the desk up and down.

Desk frames are available in Silver and White with a range of colours to choose from for the desk panel. For more information on Zoom contact us now.

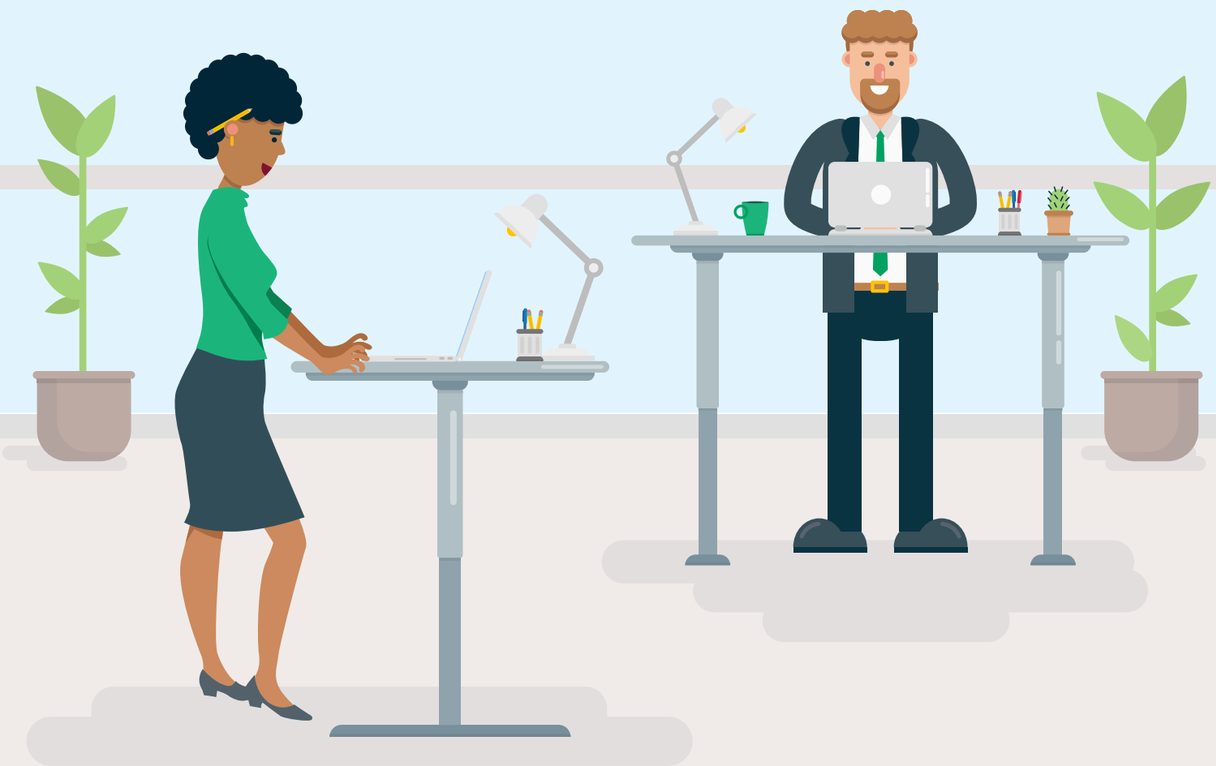
WHY SHOULD WE ALL USE A HEIGHT ADJUSTABLE DESK?



1

BRAIN ACTIVITY

If you stay fixed in one position, insufficient fresh oxygen-rich blood will be pumped around the body, causing brain function to slow down.

2

HEART RISKS

Since muscles are less active while a person is seated they burn less fat. Together with a higher blood pressure and elevated cholesterol levels this increases the risk of heart disease.

3

MUSCLE PROBLEMS

If you stay seated all day your leg muscles and gluteus muscles will become inactive, thus reducing your ability to sit up straight.

5 reasons why you should stand while working

4

BACK PROBLEMS

Staying seated for long periods causes weight pressure to be unevenly distributed over the spine, leading to spinal problems in the lower back.

5

POOR CIRCULATION

Remaining seated for too long may result in swollen ankles and varicose veins, caused by fluids sinking down into the legs.

LEAP DESK CONVERTER

The Leap Desk Converter is an electric standing desk converter that adjusts with the push of a button. Instantly convert your desk into a standing desk and get the benefits of a sit stand lifestyle.

Available in a white finish for single and dual monitors.

DUOREST 2.0

Duorest ergonomics chair reduces back pressure by supporting the spine and back muscles.

Smart Back System - Backrest depth and height is easily adjusted using the control dial to reduce back pressure by supporting the spine and back muscles.

Adjustable Armrest - Armrests can be adjusted by angle or depth to ensure correct positioning.

Urathane Castors - Double layered 3mm Urathane castors reduces noise and protects against floor scratches.

Curved Headrest Angle Adjustment - Headrest can be adjusted by height and angle to provide optimum comfort.

Self-Tilting Tension - Tilting tension automatically measures the ideal tension for the individual user to maintain a comfortable sitting experience. The degree of tilting can be adjusted by operating the degree lever.

Changeable Seatpan Cover - Removable, washable seatpan cover to maintain the product in a pristine condition.

Adjustable Seat Slide - Adjust the depth of the seat to ensure correct seating position between seat cushion and knee.

DUOREST 2.0

Code	Fabric
