Ruffles Great At Furniture

Ruffles have always had a deserved reputation for providing outstanding value, service and quality across a wide range of budgets and office styles. A fierce belief in preserving our independent purchasing policy means that we offer the widest choice of manufacturers to give customers the best selection available.

Listening and planning are the foundations of organising a new look to your office. Where practical, one of our industry professionals will visit your premises to discuss your requirements, view the area and discuss options before presenting a proposal. We are so confident that we will be able to find a proposal that will meet your requirements that there is not charge for our consultation.

Ruffles have been supplying Office Furniture to UK organisations for over 35 years, our staff average over 15 years' service to the office products industry and we have scores of customers who trust us to supply the right furniture at the best price time and time again.

We can help with Adaptive Benching.

We have a great range of Dynamic High Back Chairs.

You Can Rely On Ruffles

- 80% of product supplied is from UK or European manufacturers which mean quick deliveries for the installation and additional product.
- Option to have the furniture fitted at a time convenient to your organisation or enjoy a further discount by having the furniture delivered flat pack.
- Planning service available to allow you to see the options available to maximise the working area available and avoid costly mistakes.
- Huge choice of finishes for wooden furniture, ranging from real wood veneer to the industry standard melamine. Metal furniture colours across the spectrum from coffee and cream to bright yellow. Most of our manufacturers offer all the popular colours and an almost infinite range of colour fabrics to suit your company identity available to order on remarkable short lead times.

Planning

Whatever you are planning, Ruffles are ready to help. At the most basic level, this can be simple advice over the phone to confirm the best lay out for an extra desk, to a complete office fit-out where we liaise directly with the architects and other trades on a new build.

Projecting the look and style of your organisation to your customers and staff is a great investment, so it is worth working with professionals who will take the extra care to get the best out of your office space and budget. We work with manufacturers who will provide a complete planning service giving you a detailed drawing, and where necessary make site visits to ensure absolute accuracy.

Our close relationship with UK suppliers mean that samples of fabrics & veneers are easily available to take the guesswork out of decision making. For larger installations we are happy to arrange showroom or factory visit so you can discuss the project with the people who will be manufacturing your furniture.

Our experience will ensure that all the important points are covered before the order is manufactured.

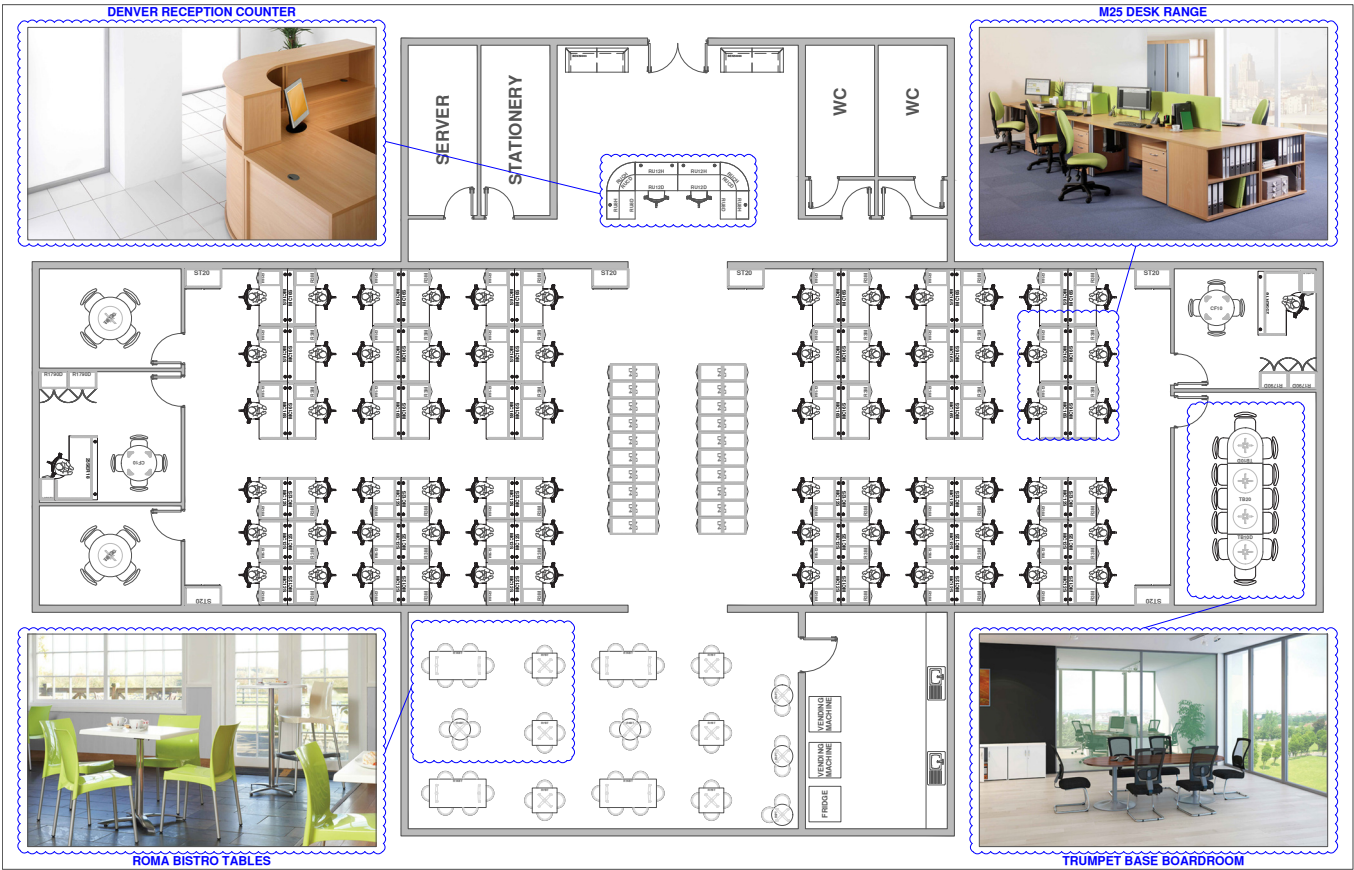

Ruffles Case Studies

Ruffles frequently undertake larger installations, below is information about a couple of clients.

A major manufacturing company in South London wanted an office which would be professional, aesthetically pleasing and would stand up to visits from engineers from the factor floor. Ruffles worked with manufacturers to select hard wearing furniture which complimented the tiling on the floor. We then liaised with IT providers Scott Ellis Systems to ensure the furniture could be installed at the same time as the cabling to minimise disruption.

Solicitors who are regular customers were opening a new branch and needed an office which was both open plan and offered some privacy for client confidentiality. They also wanted to maintain the same "House style" which we have created in their other branches. Ruffles visited the site to take an accurate measurement and met with the client to understand the brief and gain vital information regarding the use of the office, numbers of staff and storage requirements. We then worked with our manufacturers to produce a detailed drawing to confirm the furniture would fit the room and presented a quote which was within the customer's budget and time scale. It offered a furniture solution to ensuring all objectives were achieved. Our team of installers liaised with the facilities manager to arrange a quick, professional fit using the drawings as a template to ensure 100% accuracy.

Our Showroom Plan

Study 1 - Major South London Manufacturing Company.

Study 2 - New Camberley branch for leading Surrey Solicitors.

Fitting

Ruffles have in house fitters to ensure that desking is correctly assembled. Where necessary your Ruffles representative will come on site before and during the fitting to ensure your requirements are met.

Where the size or location dictates the use of contractors, we have a team of highly skilled fitters covering the UK who have worked with us for over 10 years. Ruffles carry a range of spares to ensure the job is finished on time.
