SOCIAL SAFETY
RESPECT SOCIAL DISTANCE

Keep a safe distance

We have a social distancing programme in place, please respect this and adhere to the signage on premises

Be socially safe™

SOCIAL
DISTANCING
AND SAFETY
SIGNS

WHAT WE DO

Provide a constant reminder to staff, customers and visitors with our wide selection of Social Distancing and Safety Signage.

Social Distancing and Safety Signs are a simple way to communicate instructions to employees, visitors, customers or service providers, whether you are in retail, commercial, services, manufacturing, education or any other industry. This signage helps to educate about the need to maintain strong social distancing practices by providing a simple, clear and easy to read message for all to see.

Our signs are available in a wide range of materials making them quick and easy to install from floor graphics, wall signs and entrance signs, we have developed a range which we know will suit the needs of most premises. However, if you can't find something to fit your requirements, our onsite manufacturing capabilities allows us to produce custom signs to customers own designs.

Working closely with our partners Spectrum Industrial who have been manufacturing safety signs and products for over 25 years. All our signs are manufactured to the latest published symbols detailed in BS ISO EN 7010* using the very latest production techniques.

*In cases where an ISO symbol has not been specified then the sign will be manufactured to BS 5499 standards or similar accepted industry standard until one has been published.

FOR MORE INFORMATION ON CUSTOM DESIGNS PLEASE CONTACT YOUR SUPPLIER OF SPECTRUM INDUSTRIAL SIGNAGE.

SOCIAL DISTANCING SAFETY SIGNAGE RANGE

Reinforce important social distancing safety measures with these self adhesive floor signs. Floor graphics are a unique and highly effective tactic for directing / instructing people on a site. Our floor graphics are printed digitally on self adhesive vinyl and laminated with a matt clear embossed PVC laminate. The laminate is certified R9 grade for anti-slip. Each graphic has a permanent adhesive on the reverse and is suitable for dry indoor locations, applied to sealed flat surfaces such as laminates, painted or varnished floors, or whole tiles. An outdoor specification is available on request. We recommend testing for suitability before use*.

HYGIENE AND PPE SIGNS

Protective clothing must be worn

SELF ADHESIVE FLOOR AND WALL SIGNS

Reinforce important social distancing safety measures with these self adhesive floor signs. Floor graphics are a unique and highly effective tactic for directing / instructing people on a site. Our floor graphics are made from a hard wearing non-slip self adhesive material, making them easy to apply to most surfaces such as carpet, wood, concrete and vinyl.

These signs are ideal for premises where a number of people are on site at any one time.

Clean hands after sneezing and coughing

Be socially safe

SUPER HYGIENE HEROES SIGNAGE RANGE

Implementing Social Distancing Signage

TIPS FOR EDUCATION

1 Define and set your school site Covid-19 safety rules to advise parents / carers and visitors to the setting of the rules they need to follow.

2 Create class safety rules for children to follow, as a visually appealing poster including washing hands regularly, covering coughs and sneezes.

3 Ensure adults and children wash or sanitise their hands before entering the setting.

4 Encourage children not to touch their mouth, eyes and nose through visual reminders, games and songs.

Mouth Eyes Nose

5 Where safe to do so (only on non fire doors), keep them open to limit the use of the door handles. (Keeping in mind fire safety and safeguarding)

6 Highlight any routes to be taken and any changes in entrances and exits.

7 Highlight how many staff allowed in staff rooms at any one time.

8 Place hand sanitising stations in reception, at entrances into the setting, in classrooms, dining halls, corridors etc ideally where hand washing facilities are not close to hand.

9 Educate children on hygiene with visual props and songs, including hand hygiene, covering coughs and sneezes as well as safe disposal of tissues.

10 Where canteen is set up in areas such as the school hall, you can use temporary and portable signage to provide instruction and enables easy storage when not in use.

11 To manage regular cleaning of the setting, use cleaning management whiteboard signs to feature who last cleaned when.

12 Request that people do not enter the site if they are displaying symptoms or have come into contact with anyone with covid-19

13 Where possible create a one way system where corridors may be too narrow to ensure sufficient distancing.

14 Review equipment and move items such as book shelves in corridors, to provide more space, discourage gathering points.

15 Please adhere to your allocated drop off / collection time. Be socially safe

If allocating drop off and pick up time, remind parents / carers of this with visual notices and create an area to wait or not go beyond until their allocated time.

16 DO NOT ENTER site unless have a pre-arranged appointment. Be socially safe

Request visitors do not enter site with out prior appointment.

17 Request that parents / carers do not gather at entrances or school gates. DO NOT gather at entrances, gates and doors. Be socially safe

keep a safe distance

18 PLEASE WAIT HERE

Use floor markers or stencils to create visual instruction.

19 Introduce Social distancing signs for parents/carers to follow.

20 Please adhere to your allocated drop off / collection time. Be socially safe

Reduce the number of parents dropping off and collecting children by staggering drop off and collection times or limit to one parent / carer for dropping of child.

Children and adults will all love the Super Hygiene Heroes range of signage.

Whether communicating hygiene or providing instructions, this range provides a strong visual way of communicating in a fun way, as well as helping you achieve a consistent and clear message throughout your premises.

Let the Super Hygiene Heroes help you implement a program with confidence.

BANNER

Hemmed and eyeleted woven PVC Banner. Weatherproof as well as fire, cold and tear resistant.
To be positioned at entrances to parks, on railings or above doorways to get the message across.

Our floor graphics are printed digitally on self adhesive vinyl and laminated with a matt clear embossed PVC laminate. The laminate is certified R9 grade for anti-slip. Each graphic has a permanent adhesive on the reverse and is suitable for dry indoor locations, applied to sealed flat surfaces such as laminates, painted or varnished floors, or whole tiles. An outdoor specification is available on request. We recommend testing for suitability before use*.
