HOME FURNITURE

WHO WE ARE

A selection of fresh new bedroom and living room pieces, carefully designed to enhance the already established British furniture industry.

In a world driven by consumerism, we have an ethos here at our factory. This is simply; going a step further than great customer service, to give each and every individual who enters our door exceptional hospitality.

All of our products are manufactured from our two factories in Johor, Malaysia, and have 30 years of experience of supplying worldwide.

Malaysia has long been a large producer of furniture worldwide and has become renowned for its expertise in self assembled furniture and home products.

We have added to that skillset, with specific designs created especially for the British taste. We pay particular attention to design and getting more from materials to retain solid wood looks and feel. Every piece is boxed to mail order standard, which is guaranteed to arrive to you or your customers' doorstep in perfect condition.

From ordering, via our fully functional website or with a member of our sales team, we will provide you with a streamlined service. With same day dispatches or deliveries to suit your needs, we keep you in the loop, from order placement, until receiving your consignment.

Our proficient customer service team are ready to receive and process any queries you may have.
