

## Garment Resealable Bags Clear

A professional packaging solution designed for the modern retail and e-commerce environment.

These high-clarity garment bags are manufactured from 100% Recyclable Material (LDPE), utilising a sustainable blend of 30% recycled and 70% virgin polythene.

To ensure global compliance and safety, each bag is printed with a Suffocation Warning in 5 Languages and includes strategically placed Perforation Holes to allow air to escape for flatter, more efficient stacking.

Each bag features a 1.5" Lip with a high-tack Self-Adhesive Strip, allowing for a fast, secure, and professional seal without the need for additional tape or heat machinery.

Available in a comprehensive range of sizes to suit everything from small accessories to large knitwear and bedding.
