

# HAND TOWEL FOLDS

## C-FOLD

This traditional hand towel has its edges folded in to create the 'C' shape. This type will fit most towel dispensers.

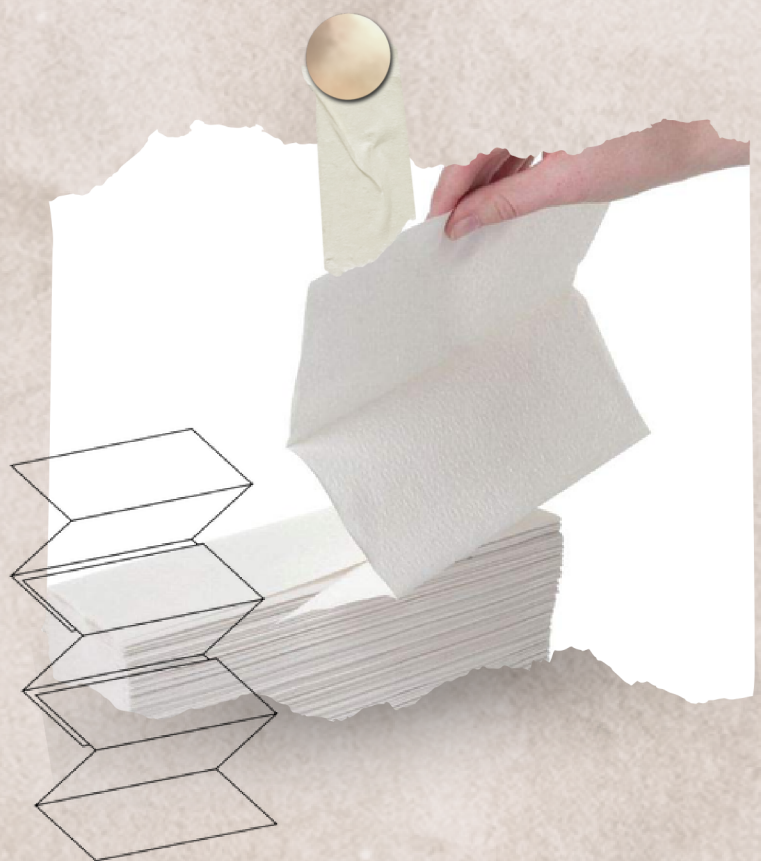

## V-FOLD / INTERFOLD

These hand towels are folded in half and stacked to interlock for easy dispensing.

## Z-FOLD / MULTI-FOLD

These hand towels are folded into three in the 'Z' shape. Reduce wastage of sheets by making the switch from C-fold.
