Trumpet

Design Stone Designs

Trumpet acts as a reversed trumpet – instead of producing sound, it absorbs sound. “It isn’t a sound absorber with LED lighting. It’s a lamp with acoustic characteristics.”

Materials and sustainability

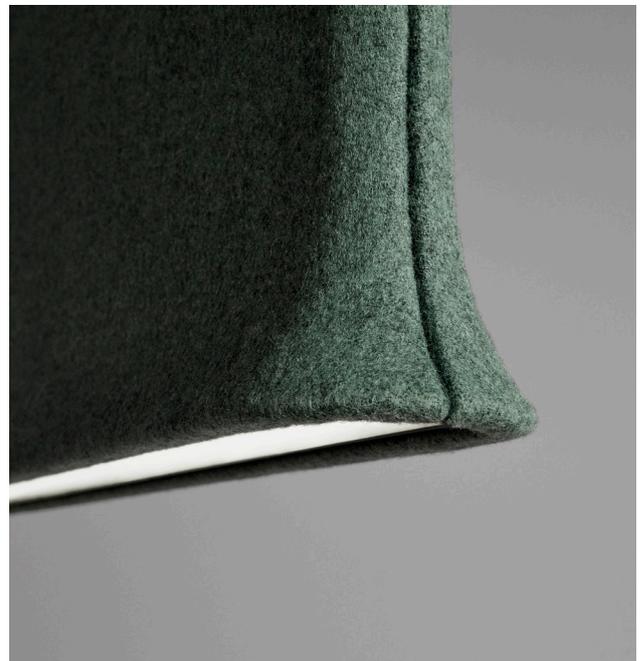

Trumpet has a solid wood body and an acoustic core made from recycled waste fabric and worn-out PET bottles.

Upholstered in a wide range of fabrics. The height of the panel can be easily adjusted.

Suspended absorber with or without LED lighting. Available in uplight and downlight versions, as well as a version that features both. A 3-metre wire with a ceiling anchor and 6 metres of electrical cable are included. On request, the product can be Dali-compatible.

Absorption

Measurements WxHxD (mm)

Trumpet absorber 1040x515x80
Trumpet absorber 2040x515x80
Trumpet lighting Downlight 1040x515x80
Trumpet lighting downlight 2040x515x80
Trumpet lighting uplight 1040x515x80
Trumpet lighting uplight 2040x515x80
Trumpet lighting up/downlight 1040x580x80
Trumpet lighting up/downlight 2040x580x80
