acoustic pods

WinPod for the win

WINPOD 2.0 pairs finely crafted aesthetics with sustainable materials to protect our mother earth. Its sound insulation effects have been tested by international certification organisation, reflecting WINPOD's ingenuity and WINTECH's endeavour in creating a workspace that improves productivity and privacy.

In an environment with sound level is above 70 dB, you will soon find yourself difficult to remain focused and productive at work. WINPOD 2.0 has gone through rigorous test based on ISO 23351-1 standards, with the speech level reduction at 28.3 dB. It creates a serene and relaxing environment that counters the stress and anxiety of our daily grinds. WINPOD 2.0 not only provides more opportunities for creative collaboration, but also helps to maximize users' concentration and satisfaction, as well as enjoy the quiet moment.

Aside from sound insulation, WINPOD 2.0 has achieved GREENGUARD Certification which is scientifically proven to meet some of the world's most rigorous third-party chemical emissions standards, helping to reduce indoor air pollution and the risk of chemical exposure. The certification can contribute to LEED credits as well.

WinPod features

Air Purifying System with HEPA Filter. The pod is well ventilated with filtered air to provide a comfortable and clean workspace to the user.

Motion Sensor for Energy Saving. LED lighting and air ventilation system are activated by the motion sensor, and will be automatically turned off after 5 minutes of inactivity.

Ergonomic and Exclusive Charging Ports. CE certified charging ports with AC outlet, type A / type C 45W PD and CAT6 port. Input 110-240 VAC, 10A, 50-60Hz.

Acoustic Material for Sound Insulation. The speech level reduction in the pod offers private and quiet environment, to be free from disturbances.

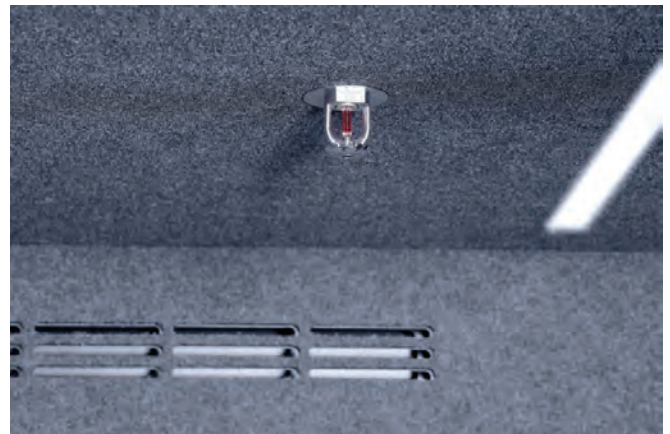

Auto Close Tempered Glass Door. The door can only be opened up to 95° to prevent collision against surroundings.

Elegant Door Handle. Trendy and aesthetic designs making WINPOD 2.0 an elegant component to the surroundings.

Knockout Hole for Sprinkler. Sprinkler head can be installed based on safety requirement.

Castors for The Ease of Mobility. An add-on feature for S/W/D POD 2.0. *Optional

Quick And Easy To Assemble. Improved design which makes installation time possible within 30 minutes.

Clockwise L-R: Elegant door handle; ceiling features a knock-out hole for a sprinkler, LED light and ventilation holes; panel features a dimmer switch, USB and C charging points and AC outlet.

3. Power Consumption: 0.47 A

4. Net Weight: 967 kg

*Optional

zen pod[®]
by abstracta

Zen Pod® by abstracta

Zen Pods are more than merely a retreat, a place to catch one's breath. More than just peace and quiet. It is a space to be enjoyed — elegantly and sparingly designed using welcoming, sympathetic materials such as wood, wool, glass, aluminium and steel.

“Zen Pod is a smart quiet room range equipped with plenty of functionality — and nothing superfluous.”

Zen Pod is available in two versions: 'Essential' and 'Advanced'. Both feature a mix of excellent materials, state-of-the-art lighting and ventilation, and both have been designed with careful attention to detail, as well as overall appearance.

Zen Pod comes in several sizes; Small, Medium, Large, X-Large and XX-Large.

Designed by Staffan Holm, Zen Pod is for spaces where people often meet and move about — whether in a university, a hospital, or a modern office complex.

Zen Pod is an acoustic oasis. It creates the perfect conditions for digital meetings, quiet conversations and focused work. Its outer acoustic walls also help to improve the soundscape of the surrounding environment by absorbing, rather than reflecting, ambient noise.

Advanced features

Exceptional acoustic performance. Zen Pod dampens sound by 31 dB, which means that it achieves sound attenuation class A.

Everything you need. Power sockets (230V), ventilation, shallow angle lighting, and controls are included.

Lighting and ventilation. Zen Pod is equipped with a uniquely designed knob for controlling both light and ventilation. The product has an energy-saving function that activates automatically after one hour without active input to the knob.

Offers even more privacy. Slatted panels are also available in clear-varnished oak or black-stained oak. Recessed curtain (sizes M, L, XL or XXL) of translucent fabric with a linen-like look also available.

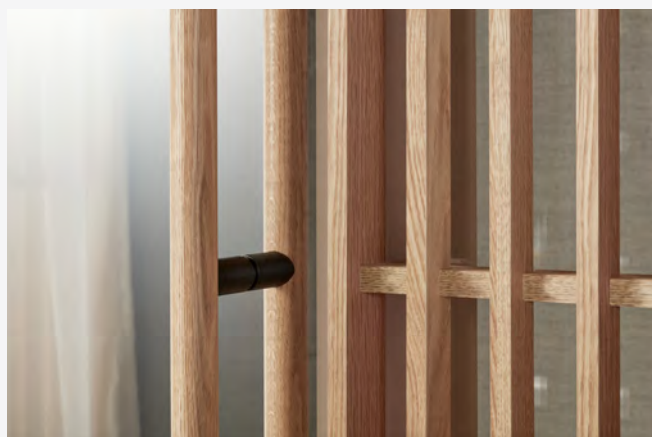

Full accessibility. Ensure Zen Pod is available to all users by using a custom ramp. Please be aware that door adjustments may be necessary when a ramp is required.

Sustainability. Swedish Möbelfakta certified. The product is designed to be reused and comes with a 10-year replacement parts warranty.

Loose Furniture. Complete your Zen Pod interior by adding our furniture packages for meetings or focused work.

Clockwise L-R: Centre light and spotlights available; Optional slatted panels in clear-varnished oak; the uniquely designed knob for controlling both light and ventilation.

cabana
by senator

Cabana by Senator

Defining space can be more than a room with a door, sometimes to make a space work you need to make it a destination, somewhere people go to get something done. Cabana is a modular demountable system that defines space.

“Cabana is an open structure that fosters seclusion and collaboration within working environments.”

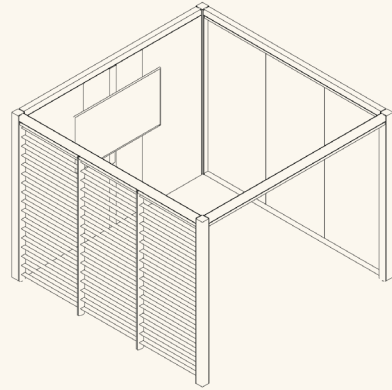

As a modular system you can select what type of wall construction you want, each wall of Cabana can be different. The main extrusions are wrapped in an Oak foil to give a more custom-built look. Cabana can be specified with a closed acoustic ceiling with integrated lighting or with a slated upholstered fin ceiling.

Cabana Pod Overview

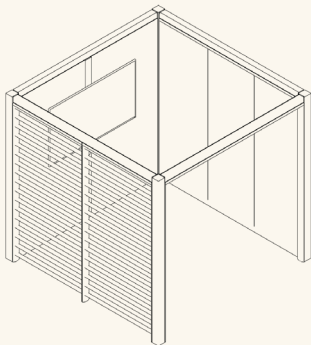

Moving away from your regular workstation to a defined space to have an impromptu meeting, share data on a media wall or sketch out a new idea with colleagues on a dry wipe wall. Cabana provides the space for this to happen, the fact you moved a short distance from your workstation to a different place gives your actions purpose and protects your colleagues from distraction allowing everyone to be more productive.

Haven Pods

Advances in technology, changing work patterns and the trend towards open plan workspaces have resulted in an evolution of the modern workplace. Pods create both focused environments within open plan offices and provide ideal spaces for ad hoc meetings and sharing ideas.

“The variety of different pod sizes and shapes means you can meet together no matter what the size of your team.”

The products across the range offer different acoustic and privacy benefits. Their innovative geometric shape maximises space efficiency whilst also reducing surrounding noise.

Haven Pod features

STANDARD FEATURES

- Internal steel frame with multi-layered acoustic foam construction.
- Outer vertical panels upholstered in Camira Blazer fabric (two-tone is standard).
- Quick release panel connector system.
- Levelling adjusters.
- Integral work surface.*

- Work surface mounted power and data module, incorporating; 2 x 3.15 Amp power.*
- Integral under work surface vertical cable management.
- Fixed Worksurface with Cable Tray and Riser.*
- Low voltage LED task light.*

*Selected models only.

OPTIONAL FEATURES

- 1, 2, 3 or 4 person configuration.
- Height adjustable work surface.*
- Storage.
- Integral under work surface vertical cable management.
- Low voltage LED task light.
- Integral seat and backrest.
- Fixed worksurface with Cable Tray and Riser.*
- Multiple fabrics on integrated seat units.

Haven Pod Overview

The Haven Pods family consists of 6 variants. Haven Pods nestle and tessellate to maximise available space, allowing the creation of a community of environments and destinations.

This new family of Haven Pods has been developed to respond to what people tell us they want, to facilitate how people want and need to work; to focus as individuals or in group spaces.
