Sustainability

At MBM Omega, sustainability is at the heart of everything we do — including how we celebrate the festive season. In line with our sustainability pledge, we are proud to support our partner's commitment to responsible and environmentally conscious practices.

RESPONSIBLE SOURCING

Our real Christmas trees are UK grown and supplied through partners who share our values of sustainability and ethical sourcing. Grown as horticultural crops, these trees are cultivated specifically for seasonal use without contributing to deforestation. For every tree harvested, new ones are planted, helping to maintain biodiversity and ensure a continuous, healthy cycle.

REDUCING WASTE & CARBON IMPACT

Together with our partner, we support initiatives that reduce waste and minimise carbon emissions. Decorations, artificial trees, wreaths, and garlands are reused wherever possible, and logistics are carefully planned to limit travel and emissions. After the festive season, real trees are responsibly recycled or repurposed, helping prevent landfill waste and promoting a circular, sustainable approach.
