Call us today, to discuss your bespoke safety needs.

We make graphics, signs and stands to our customers specifications.

*Call now for information on our Safety Stations,
the all-in-one, hand gel stand, safety equipment
and information point for large organisations.*

Please note the following Important information.

- We do not accept responsibility for damage or injury caused by placement or removal of signs or floor graphics.
- When floor graphics or signs are being removed, care should be taken to avoid damage.
- Signs and graphics must not be applied to delicate, fragile, poorly painted or otherwise damaged surfaces.
- We do not accept responsibility for any accidents or injury that may occur due to the use of floor decals or graphics. Floor graphics are supplied with a textured laminate. If the customer has any worries as to the suitability of the floor or location, they should opt for a stencil or refrain from using these products at all.
- Care should be taken when choosing the location for these graphics and their surface should not be polished or waxed.
- Floor graphics are temporary of nature and should be removed or replaced immediately when any damage appears.
- Floor graphics should not applied to a waxed surface as this will prevent adequate adhesion.
- Avoid buffing the edges of floor decals as this will shorten the lifespan.
- Please note all dispenser units are supplied without gel.
- The standard pump gel bottle holder is 78mm diameter. If you need a different size you must inform us at the time of your order.
- The customer bears the sole responsibility for use of these products.
