# SILENT ROOM

Choose SILENT ROOM acoustic pods to create functional work areas by dividing or opening interior spaces as necessary. This piece of furniture can be set up in the middle of the office space, near the walls or partitions or inside a wall niche maintaining a clearance of just 300 mm at the top for air circulation.

SILENT ROOM

SILENT ROOM

Less noise, less chaos

Multilayered SILENT ROOM wall structure, hermetic door and ceiling ensure sound insulation. The inner layer of the panels is made from high-class acoustic material that eliminates echo and has excellent sound absorption properties. The upholstered exteriors block out noise effectively and create an acoustically-optimized working environment.

Creative freedom to  
customise your design

SILENT ROOM offers a variety of design options for you to be able to create a personalised design and desired office mood. The interior and exterior finish can be selected separately. Both melamine and upholstery can be used for the exterior panels.

A powerful ventilation system installed at the floor level and in the ceiling of the SILENT ROOM acoustic pod efficiently removes excess heat and high levels of CO2 concentration. A smart control unit selects an optimal ventilation and illumination level, and, if necessary, allows for individual adjustment. Once an employee leaves the SILENT ROOM, intense ventilation is automatically activated to prepare the room for the next user.

**ACOUSTIC  
PODS**

SILENT ROOM is easily adapted to a variety of activities. The acoustic pods come in three different sizes with selectable options such as glass back-wall inserts, high or standard tables, seating, monitor holders, etc.

For users' convenience, the room can be equipped with a power outlet (USB type A and C connectors) or 3-plug power block. The power block can come with in-built sockets, LAN or USB ports in various configurations.
