SAVE Money and the Environment

Consider Reupholstery With Us

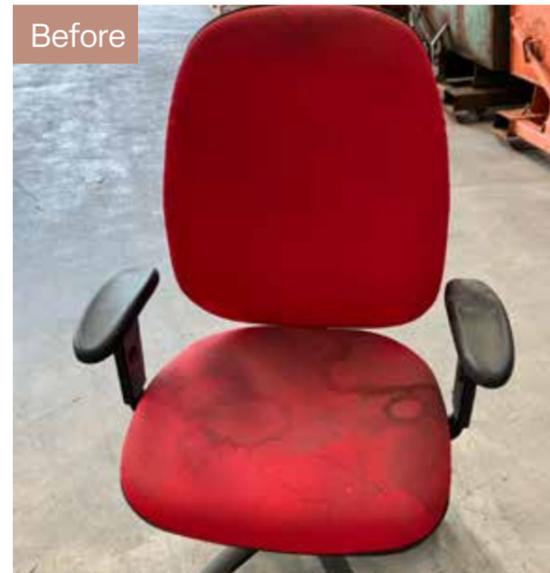

Breathe new life into your existing furniture — extend its lifespan, enhance comfort, and reduce waste. Our expert reupholstery service offers a sustainable alternative to replacement, combining craftsmanship with eco-conscious materials.

How it works

- 01/ Contact Your Account Manager**
Let your account manager know what needs to be repaired, reupholstered, or recycled.
- 02/ Collection**
Our team collaborates with your site staff and movers to manage efficient and hassle-free removals.
- 03/ Refurbish & Reupholster**
We evaluate each piece to determine what can be refurbished or recycled. Items are repaired and reupholstered using eco-conscious materials and methods.
- 04/ Return & Reuse**
Refurbished furniture is quality-checked and delivered back, ready for use — saving cost and reducing waste.

Save up to 40% by **Refurbishing** instead of Replacing

Upgrade your Furniture Sustainably

Extend the lifespan of existing furniture
Reduce waste and environmental impact
Maintain design consistency across your workplace
Choose from eco-conscious fabrics and modern finishes
Comply with your sustainability goals

Refresh. Restore. Reuse. Reupholster with us

All work is completed to high quality and environmental standards, backed by our **ISO 9001:2015** and **ISO 14001:2015** accreditations, and a 12-month workmanship guarantee.

We Do ReUpholstery

We believe in renewing, not replacing. Our refurbishment and reupholstery services extend the lifespan of furniture by restoring functionality, comfort, and aesthetic appeal — without the environmental cost of new manufacturing.

By replacing worn components and reupholstering with sustainable or recycled fabrics, we give furniture a fresh life and keep valuable materials in circulation.

We Do Refurbishment

Whether it's an office chair, a sofa, or a full workstation, we carefully strip, clean, repair, and rebuild each piece using durable, high-quality materials.

We Do Move Management and Relocation

We offer professional, efficient furniture relocation services that prioritize reuse, organization, and sustainability. Whether relocating within a building, between sites, or during an office reconfiguration, our experienced team ensures furniture is handled with care — and purpose.

Z2

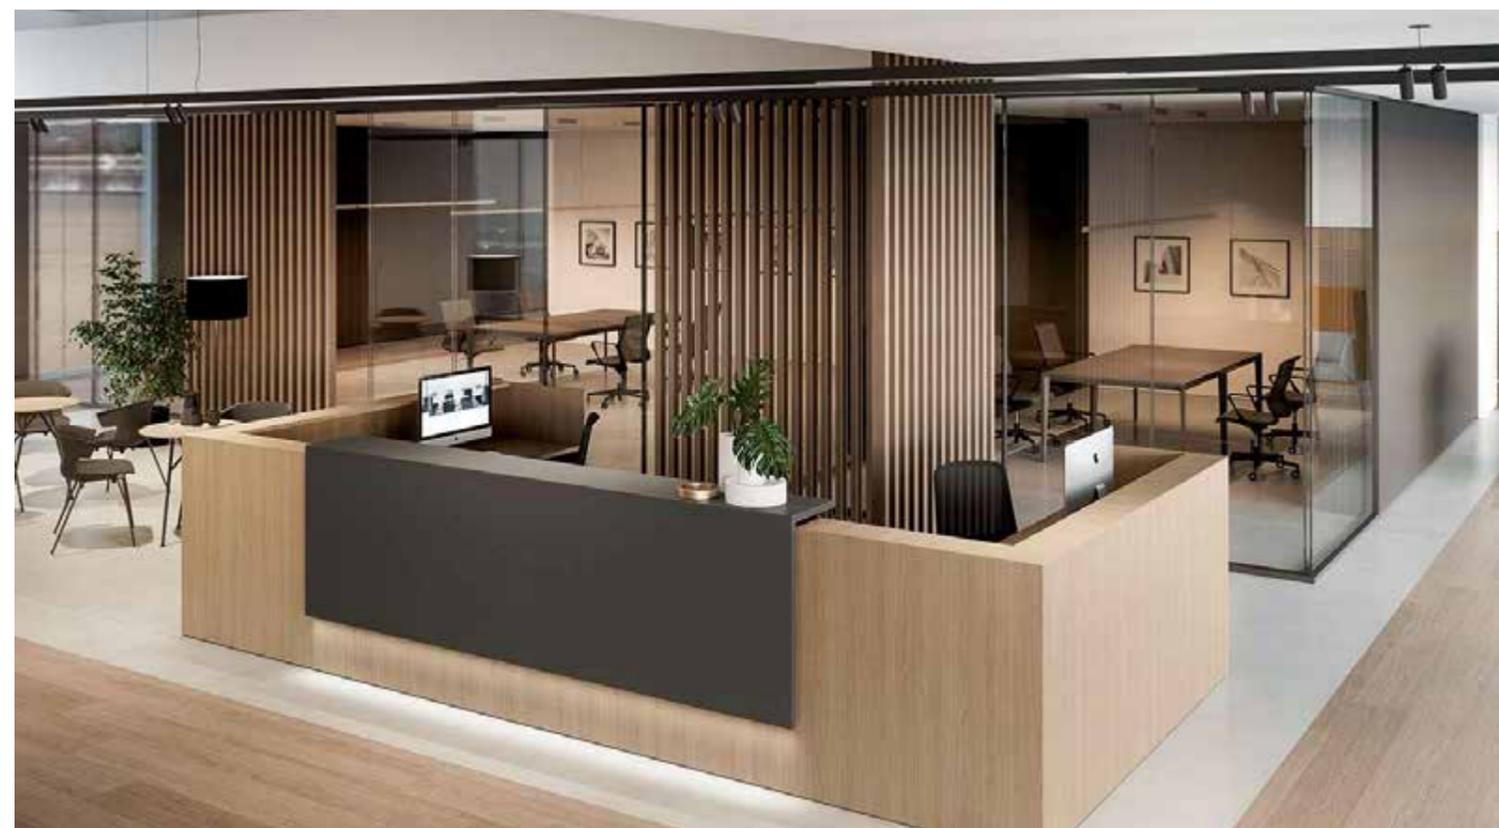

Z2 reception: a simple design that guarantees both operational efficiency and a warm reception for visitors.

Its modular system enables total customization: it adapts to available spaces as well as operative and reception requirements, thanks to the meticulous design of vertical and horizontal elements.

A high-impact aesthetic effect can be generated by matching different finishings, such as the dual-colour composition, with lacquered, melamine or leather modules, to choose from.

More base colours, styles & top sizes available upon request. Optional lighting and cable are available.

Engage Meeting Table

A space where cultivating relationships, exchanging ideas and knowledge, combine to enable communication. Engage meeting tables suit a multitude of requirements, from impromptu meetings to casual breakout.

Engage meeting tables are available as standard in circular, rectangular, oval or barrel shapes in a range of wide range of sizes as standard. The flexibility of the system allows for more bespoke solutions if required. Both ranges utilise their familiar and proven frame construction which allows for cable management to be added, as well as a variety of through top power and data options. Height Adjustable feet.

Engage Conference Table

A space where cultivating relationships, exchanging ideas and knowledge, combine to enable communication. Each range offers modular solutions designed to suit a multitude of requirements, from impromptu meetings to the prestigious boardroom.

Engage conference modules are available as standard in 1250 and 1650 depth, with widths from 1400mm – 2400mm as standard. The flexibility of the Engage system allows for more bespoke solutions if required. Both ranges utilise their familiar and proven frame construction which allows for cable management to be added, as well as a variety of through top power and data options.

Ad-Lib

Ad-Lib Tables were developed to work with Ad-Lib seating and share common design values and architecture. Lean material usage and sustainability were fundamental in development, as was the desire to develop a truly universal table programme with a very small inventory of components.

Creo

Slender and diagonal legs, authoritative and rounded bases, tops in a selection of shapes and finishings: Meeting Tables provide a comfortable and large-sized surface top, accommodating different people at the table.

The TV Box is one option that can be installed with Creo, a system featuring a panel with doors and a monitor. With TV Box you can host online meetings and display multimedia material, data and visual inspirations with partners and professionals in a simple and intuitive way. Optional wipe board can be added. TV not supplied.

Verso

The collection is elegant and very strict in form. Sharp shapes and a simple frame on which the seats are mounted make the furniture look futuristic. Changing the frame for chrome legs in the shape of pins will make the piece of furniture more glamorous. The seats will be perfect for elegant spaces with modern décor or glamor-style offices. A piece of Verso placed in the reception area, waiting room or a large hall will fantastically enliven the space.

Armony

Armony is a **modular** system of beam sofas and small tables, designed to pleasantly wait in business and hospitality spaces, it offers comfort and versatility: the polyurethane padding is soft and elastic, while the aluminum legs are solid and essential. Both the backrest and the seat are embellished with a visible stitching. Choose between materials, finishes and accessories, integrating electrical sockets, desk, armrests, back and coffee table into the structure.

Lounge Seating

Rixos

The perfect solution to seating in areas where stability and comfort are paramount. Our Rixos range is regularly used in a wide variety of healthcare environments including hospitals, care homes and waiting rooms. The Rixos range features a solid wood frame, moulded foam and sprung seat with lumbar back for extra comfort. This range can be upholstered in medical vinyls as well as fabrics depending on the chosen environment.

Public Space Beam

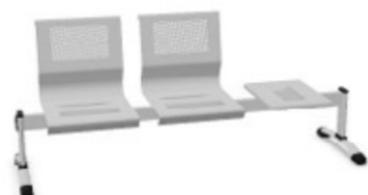

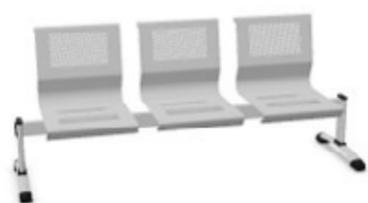

With a robust construction, the beam units are available in any seating or table combination of two, three or four bench units, with or without our arms.

Cluster Metal Beam

Cluster is a modular seating system, entirely made of metal, designed to furnish waiting areas in public structures.

The product includes a monostructure seat (seat and backrest) made from a curved and partially perforated steel sheet, painted with scratch-resistant paint and very resistant to vandalism and external agents.

The seats are connected to a rectangular beam supported by polished aluminium feet, equipped with adjustable feet to compensate for any unevenness of the floor. Armrests are also available with a polished finish, as well as the possibility to equip the seat, backrest or both with a padded and upholstered cushion.

Clark

Contemporary conviviality. Clark is the ideal stool for residential, hospitality and catering interiors: modern, playful and eclectic. The seat is made up of numerous wooden slats, placed side by side and interspersed with thin slits: a solution that gives stability to the stool and makes the aesthetics dynamic. The steel rebar structure and wooden seat create a contrast suitable for rustic, industrial and modern interiors with an understated style: a versatile furnishing piece for residential and contract projects.

**Please specify carcass colour and door colours when ordering.

Wire Mesh Lockers

Our Wire Mesh Lockers are a durable storage solution that offer visibility into each compartment. These lockers are ideal for a variety of work environments, including construction, manufacturing, schools, colleges, and the leisure sector. They are available as a nest of 2 and come in configurations of 1,2,3,4 and 6 doors.

FEATURES

- Powder-coated silver for a robust and durable finish.
- Fitted with a hasp and staple locking mechanism
- Manufactured from 25mm x 25mm x 2.5mm welded mesh on an 8mm solid rod frame.
- Equipped with identification holders for easy identification of compartments.
- Equipped with legs for easy access, allowing for convenient cleaning underneath the lockers.

Office Shelving

Our white office shelving range has been completely redesigned since its initial release, now offering extended functionality, durability and value. Boasting a clean and professional design, which will compliment almost any environment from offices to storerooms, archive rooms and libraries.

Complete with a high-quality white painted finish in RAL9010. Supplied as standard with 6 shelves, which are adjustable in 25mm increments, rated with a 100kg UDL (uniformly distributed) load capacity per shelf (600kg total per bay). A perfect office storage solution for books, files and folders. The range also now features a 362mm deep version which has been specially designed to accommodate 330mm lateral files. UK manufactured.

Acoustic Panels

Koala Workspace dividers are made from premium acoustic panels and recycled PET material (recycled bottles) and come in an extensive range of designs and colours. These dividers act as a physical division between spaces within offices or other rooms, whilst also introducing some added acoustic absorption to reduce overall noise. Dividers are suspended from the ceiling.

The suspended design means that the dividers do not take up any floor space, leaving more room for furniture and equipment.

Koala Acoustic

Freestanding Screens

Koala freestanding acoustic screens are the perfect way to easily divide up space and reduce noise. We have a wide selection of high quality freestanding acoustic screens. All our freestanding acoustic office screens can be easily moved around to suit your workplaces day to day needs.

These versatile screens not only help in creating a more organized and efficient workspace but also contribute to a quieter and more focused environment. Designed with both functionality and style in mind, our freestanding acoustic screens come in various sizes, colors, and designs to complement any office decor. Whether you need to create private workstations, divide open-concept areas, or simply reduce distractions, our acoustic screens offer a practical solution without compromising on aesthetics.

Cloak and Petal

We offer a variety of acoustic solutions for offices based on lots of different requirements: the Light sound collections. They are modular, because every space has different measurements, they are customizable, because every style must be recognizable, and they are practical because they consist of light materials and self-supporting systems. Design is harmony, comfort is design, beauty is functionality: only in this way is it possible to harness sound. Panels can be wall or ceiling mounted.

Finishes:

Motus

Motus originates from the Latin meaning for motion, which is exactly what this mobile screen does. This next generation mobile screen provides a shaped foot which allows panels to be pushed together to close spaces in between or linked completely to create a wall. Offered with the usual plethora of panel finishes including fabric, dry wipe boards, glass and acrylic.

Mobile screen range supplied with four castor feet (two locking). Top dry wipe board finish available as standard. All split finishes supplied with triple tool rail for accessories. Screens can be linked inline or at 90 degrees if required.

Motus
