GREASEPROOF PAPER SHEET SIZE GUIDE

Find the right size for your food. Our greaseproof paper sheets are ideal for wrapping, lining and serving a wide range of hot and cold food.

SHEET SIZE	ILLUSTRATION	TYPICAL USE	EXAMPLE FOODS	HELPFUL TIP
250 × 200 mm 		**SMALL SHEETS** Ideal for smaller items or a neat liner under one portion.	Burgers, cookies, brownies, small pastries, sandwich halves and small food baskets.	Best for smaller items or when you need a compact sheet.
320 × 250 mm 		**BURGER WRAPS** Great for wrapping burgers, filled rolls, wraps and sandwiches.	Burgers, filled rolls, wraps and sandwiches. Also suitable for lining a medium serving basket.	Allows more paper to fold around the food than a 250 × 200 mm sheet.
375 × 245 mm 		**TRAY AND BASKET LINERS** Perfect for serving baskets, trays and larger portions.	Serving baskets, loaded fries, sides, pastries and food served on a tray.	Check the inside base of your tray or basket before choosing.
350 × 250 mm 		**LARGER SHEETS** Useful when you need extra coverage for larger items.	Steakhouse-style servings, larger sandwiches, generous portions and larger basket liners.	Ideal when a smaller sheet does not provide enough coverage.
420 × 270 mm 		**EXTRA-LONG FORMAT** Great for longer items and generous portions.	Longer tray presentations, fish portions, chips, loaded fries and larger takeaway servings.	Consider this for long or generous portions that need extra coverage.
