

# Sanitized Cutlery Envelope Product Specification Sheet

Trimfold Envelopes Ltd have developed a sanitized cutlery envelope for the hospitality industry in response to the ongoing challenges of Covid-19 and the particular difficulties it presents within hospitality. The benefits for venues using Sanilope are that it increases consumer trust in the safety of the premises they are eating in and it enhances employee safety when handling cutlery with customers.

Trimfold Envelopes manufacture Sanilope at our plant in Trim, Co. Meath, Ireland.

The paper used for Sanilope is treated with a sanitizing formulation which is applied to the paper during the manufacturing process of Sanilope.

Bespoke printing of Sanilope is possible in single colour and for minimum order quantities as the printing needs to take place as part of the manufacturing and sanitizing process. Trimfold Envelopes will hold stock of standard Sanilope at our manufacturing facility in Trim, Co. Meath, Ireland.

All of the paper used by Trimfold Envelopes comes from PEFC certified sustainable sources.

Size : 110mm x 240mm

Paper : 120gsm White

Sanitizing Formulation applied during the manufacturing process

Peel & Seal Closure for cutlery insertion, a perforated end section for cutlery removal by the guest

The Sanilope name, brand and logo is the intellectual property of Trimfold Envelopes Limited and its use or reproduction without permission shall be a breach of the Trade Marks Act 1996 and the European Union Trade Mark Regulation 2017/1001 Trademark applications are in place for Ireland, EU, UK and USA. Sanilope is Patent Pending: EP21197053.8
