THE MOLESKINE STORY   **THE COMPANY**   **UNFOLDING STORIES**

THE MOLESKINE STORY

The heir of the legendary notebook.

1 2 ›

THE ORIGINAL

The classic black notebook with ivory coloured pages and rounded corners is an object imbued with history and creativity. Beginning in France and used by cultural icons like Vincent van Gogh, Pablo Picasso, Ernest Hemingway and Bruce Chatwin, the Moleskine Notebook has upheld and continued this legacy.

LEGENDARY BEGINNINGS

The notebook that Bruce Chatwin called "moleskine" became increasingly scarce in the 1980s before disappearing from production completely. In 1997, a small Italian publisher brought the **legendary notebook** back to life, and with it an extraordinary tradition of creativity and self-expression.

PAPER EVOLVES

Today, the original Moleskine Notebook is part of a **family of versatile tools**, for ordinary and extraordinary journeys, to foster creativity and improve productivity. We offer objects such as bags, accessories, writing instruments, booklights and digital device covers. Our Moleskine Plus Collection bridges the gap between analog and digital processes. While our Moleskine Books Collection is an essential resource for today's creative professionals: inspiring books featuring leading figures from the worlds of architecture, design, graphic design and fashion.

THE MOLESKINE COMMUNITY

Thousands of creations are posted online regularly by **fans of Moleskine**. We also engage offline through partnerships with some of the world's key cultural leaders, in-store events and travelling exhibitions, such as Detour.

UNFOLDING STORIES

We believe in the power of stories to move people and bring about positive change. From the history of the legendary notebook used by creatives over the centuries to notes penned today, all our objects connect you to an ever-evolving story of inspiration.

Our notebooks, apps and bags are designed as portable tools that quietly frame and celebrate creativity, exploration and ideas. We offer spaces where stories can unfold –platforms where everyone and anyone can contribute to the making of contemporary heritage. The next chapter is yours to create.

CREATIVITY

Creativity goes beyond art: it encompasses time management, project organization and innovative problem-solving.

CULTURE

Culture is dynamic, multicultural, progressive, often informal and in constant evolution. Today's notes and sketches are the cultural heritage of tomorrow.

PERSONAL IDENTITY

Personal identity is tied to self-expression. Identity is expressed through the ideas you note down on the page and the things you never leave home without.

EXPLORATION

Exploration and travel mean ordinary as well as extraordinary journeys. Exploring with the imagination is as important as physical travel.

MEMORY

Memory is about keeping track of professional and personal projects, or perhaps recording a journey. Memory is triggered by writing and sketching by hand on the page.
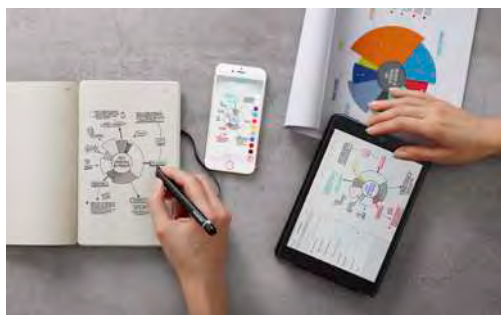

CURIOSITY

Personal growth means being curious about everything, taking every opportunity to learn, and being open to your surroundings. Knowledge-acquisition through curiosity is a life-long process.

PRODUCTIVITY

The brain works differently when writing longhand and concepts often grow more naturally on the page. Productivity means using the right tools to capture, share and grow ideas.

TECHNICAL CONSIDERATIONS

There are many ways to apply a company identity to Moleskine objects, from classic printing techniques to the latest technological advances. You can discover more about each below.
Note: when printing with debossing and silkscreen, results may vary. Our team will help you make the best technical decision to communicate your story.

FOIL DEBOSSING

This technique is the same that has been used for thousands of years to decorate objects using gold leaf. It creates an indentation which can be felt and the result is striking and elegant. It is available for custom editions in a range of colours including metallic colours (commonly gold, silver, copper or bronze). Foil debossing works beautifully with one or more colours, but has some restrictions.

DIGITAL FOIL PRINTING

This technique produces an effect like foil debossing but without the indentation because it prints flat. This technique is mainly used to add names and initials to notebook covers.

DIGITAL PRINTING

This is a newer technique that allows us to reproduce full colour text and images, except metallic colours, on a variety of surfaces. Despite having some restrictions, it is a great way to replicate more challenging images.

BLIND DEBOSSING

Like foil debossing, this technique creates a strong indentation which can be felt. No colour foil is added so the notebook retains its original colour, creating an elegant yet discreet effect.
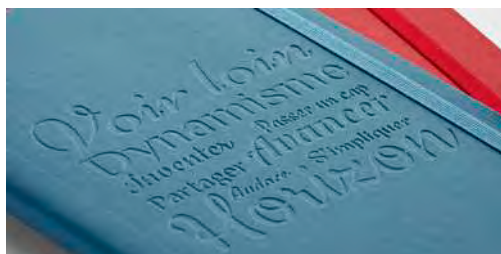

SILKSCREEN

Also called serigraphy, this is one of the oldest printing methods still in use today and results in bright, eye-catching colours. It can replicate almost any colour and therefore we always use it in printing logos and company colours. Despite some technical restrictions, this method works well with from one to four colours.
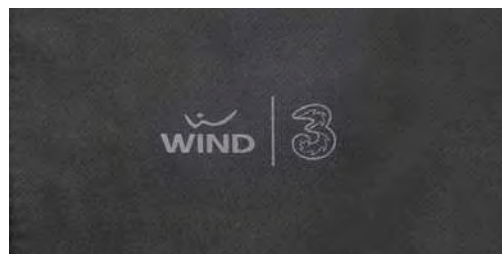

OFFSET PRINTING

This technique has largely substituted letterpress and lithography due to its higher quality, faster turnover, and lower production costs. It is a paper printing technique that Moleskine uses for all of our paper add-ons such as inserts, paper-bands, flyers and gift boxes. It is available only on paper add-ons and ad hoc projects.

PAPER TABLET SMART NOTEBOOK COLLECTION

Digitize freehand drawing and notes in real time.

The Paper Tablet Smart Notebook gives you the freedom to capture your ideas by hand on paper, teamed with all the advantages of digital creativity. Invisible NCoded™ technology embedded within each page enables the Moleskine Smart Pen to recognize where it is within the notebook and to transfer all your freehand notes from page to screen in real time via the Moleskine Notes app. You can then digitally transcribe, edit, organize and share handwritten notes and sketches, for seamless integration between paper and cloud. Distinctively rounded pages project beyond the cover to reflect the shape and look of a digital tablet, while resistant 100 g/m² paper provides the perfect surface for either writing or drawing. Choose between dotted, ruled or plain pages depending on your unique professional and creative needs. The Moleskine Smart Pen recognizes not only differently numbered Paper Tablet Smart Notebooks, but also different covers, page layouts and sizes – allowing you to switch between notebooks and seamlessly develop a variety of ideas on the move, on the page and on screen.
