

Frontside mask

Backside mask

DESCRIPTION

Cone style respirator FFP3 NR, model HSD-CO3V is a filtering face piece, intended for single use respiratory protection. The mask is made of polypropylene and the soft inner layer ensures maximum comfort. The mask is designed on the contours of the face and has a pre shaped nose cushion to provide optimal fit. The valve increases the ease of breathing, and the latex-free head straps provide even distribution of pressure across the neck, face and head.

The HSD-CO3V protects you against non-toxic, low-to-average toxicity and high toxicity solid and liquid aerosols and is tested and certified according to EU 2016/425.

FEATURES

- Pre-shaped nose bridge for better facial fit
- Soft inner layer for optimal comfort
- Latex-free head straps
- Even pressure distribution on the neck, face and head
- Contour fit design
- Efficient retail packaging that makes it easy to store when the masks are not being used
- Exhalation valve increases ease of breathing
