RESULTS ARE EVERYTHING

When it comes to laundry operations, we understand that wash results are everything. TMH have been involved in the OPL business for 20 years, offering highly effective chemical laundering solutions. Our comprehensive range of environmentally friendly laundry products ensure brighter, softer, stain free results. Linen, towels, and other washable items look and feel their best with a pleasant and fresh fragrance.

VALUE DRIVEN SOLUTIONS

With our experienced support team, we actively care about your laundry. We take great pride in providing a highly reactive service to all our customers large and small and it is our constant endeavour to boost your laundry productivity whilst reducing running costs.

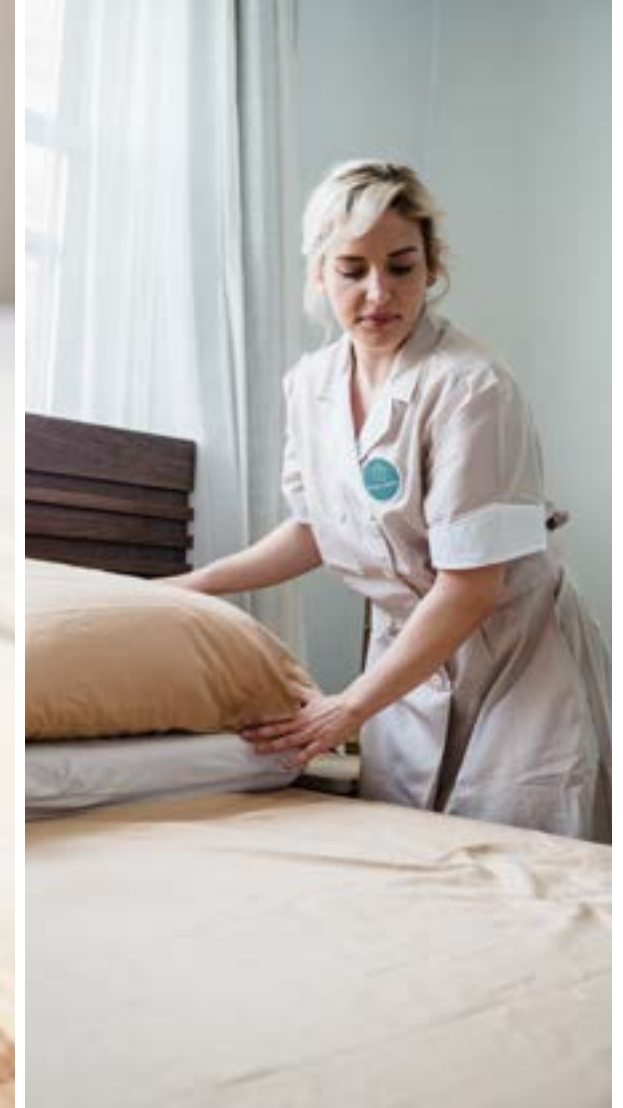

RESULTS ARE EVERYTHING

HOSPITALITY LAUNDRY

From office staff to logistics, sales people to engineers, we actively care about your business. We take great pride in providing a high reactive, nationwide service to all of our customers, large and small, and it is our constant endeavour to boost your laundry productivity whilst reducing running costs.

Our local services managers will create a process that will optimise performance and customise wash programs specific to your requirements, water condition and budget. Our scheduled „Preventative Maintenance Programs” and „Customer Service Reports” ensure our chemical management systems run efficiently and economically.

Our experienced sales and technical people are trained to support your staff in all aspects of commercial laundry operations. Your business will benefit from enhanced safety, increased labour productivity, minimum rewashes and reduced linen replacement costs.

RESULTS ARE EVERYTHING

MEDICAL LAUNDRY

Disinfection Control.

Trusted by hundreds of Healthcare Institutions across Europe, our proven range of liquid and powdered products along with thermal disinfection will kill MRSA, C-Difficile and all other bacteria, leaving laundry sanitised and looking its best.

We take great pride in providing a highly reactive, service to all of our customers, large and small, and it is our constant endeavour to boost your laundry productivity whilst reducing running costs.

Putting You in Control.

Our tailored management systems, high performance products and decades of local experience enable us to assist you in giving your best to those that depend on you.

RESULTS ARE EVERYTHING

CUSTOMISED WASH PROGRAMMES

Our engineers will optimise performance and customise wash programmes specific to your textiles, water condition and budget. Our scheduled preventative maintenance programmes and customer service reports ensure our chemical management systems run efficiently and economically.

RESULTS ARE EVERYTHING

THE VALUE OF OUR EXPERIENCE

Our experienced team are trained to support your staff in all aspects of the commercial laundry operation. Your business will benefit from enhanced safety, increased labour productivity, minimum re washes and reduced linen replacement costs. Full chemical documentation is supplied in every account.

RESULTS ARE EVERYTHING

STAFF TRAINING

We place great emphasis on regular on-site staff training, but we also listen to your staff laundering issues too. With this strategy we work together with the customer to successfully improve results.

RESULTS ARE EVERYTHING

STAIN REMOVAL

Are you having issues with any of the following stains: cosmetics, beverages, room service meals, alcohol, bodily fluids, blood, sweat, shoe polish? We can improve your laundry results with a demo.

Along with our OPL chemical systems, we carry a range of highly effective Prewash Spot & Stain removers designed to be used on difficult stains.

RESULTS ARE EVERYTHING

STOCK AVAILABILITY

We work with the best chemical manufacturers in the world to help you achieve premium results. In the uncertain world we live in, you can count on us to always have the stock you require to run your laundry effectively.

RESULTS ARE EVERYTHING

CHEMICAL DISPENSING TECHNOLOGY

We only work with the best chemical dispensing equipment manufacturers for On Premise Laundry customers. We can support any size laundry to dispense chemicals safely and efficiently. Chemical dispensing systems are available in 2, 4, 6, 8 and 10 pump versions. We also supply central dosing systems for larger accounts with multiple machines, with the ability to generate up to date reporting, to help you analyse your productivity and control your costs.

Automatic Dosing System (ADS) For TMH Laundry Liquids.

The ADS is an automatic dosing system that feeds liquid laundry chemicals from the drums via a wall mounted pump feeding directly into the laundry machine at the correct point of the wash/rinse cycle. It ensures the correct dosage for any chemical to be dispensed for any given stage within the wash process.

TMH Service Support

We provide the Service Support to install, commission and calibrate auto dosing equipment. We also provide regular service check-ups.

RESULTS ARE EVERYTHING

ENVIRONMENTAL CREDENTIALS

At TMH, it's our aim to help you achieve pristine laundry results but also with consideration for our fragile environment. We supply a full range of environmentally friendly, concentrated laundry products with biodegradable ingredients, supplied in recyclable containers.

We encourage washing at lower temperatures, which saves water, time & energy!

ENERGY SAVING SYSTEMS

Water Saving

Incredible cleaning power means you could reduce your water usage by up to 25% per wash.

Time Saving

Cycle times are reduced as the water used during the wash is not heated.

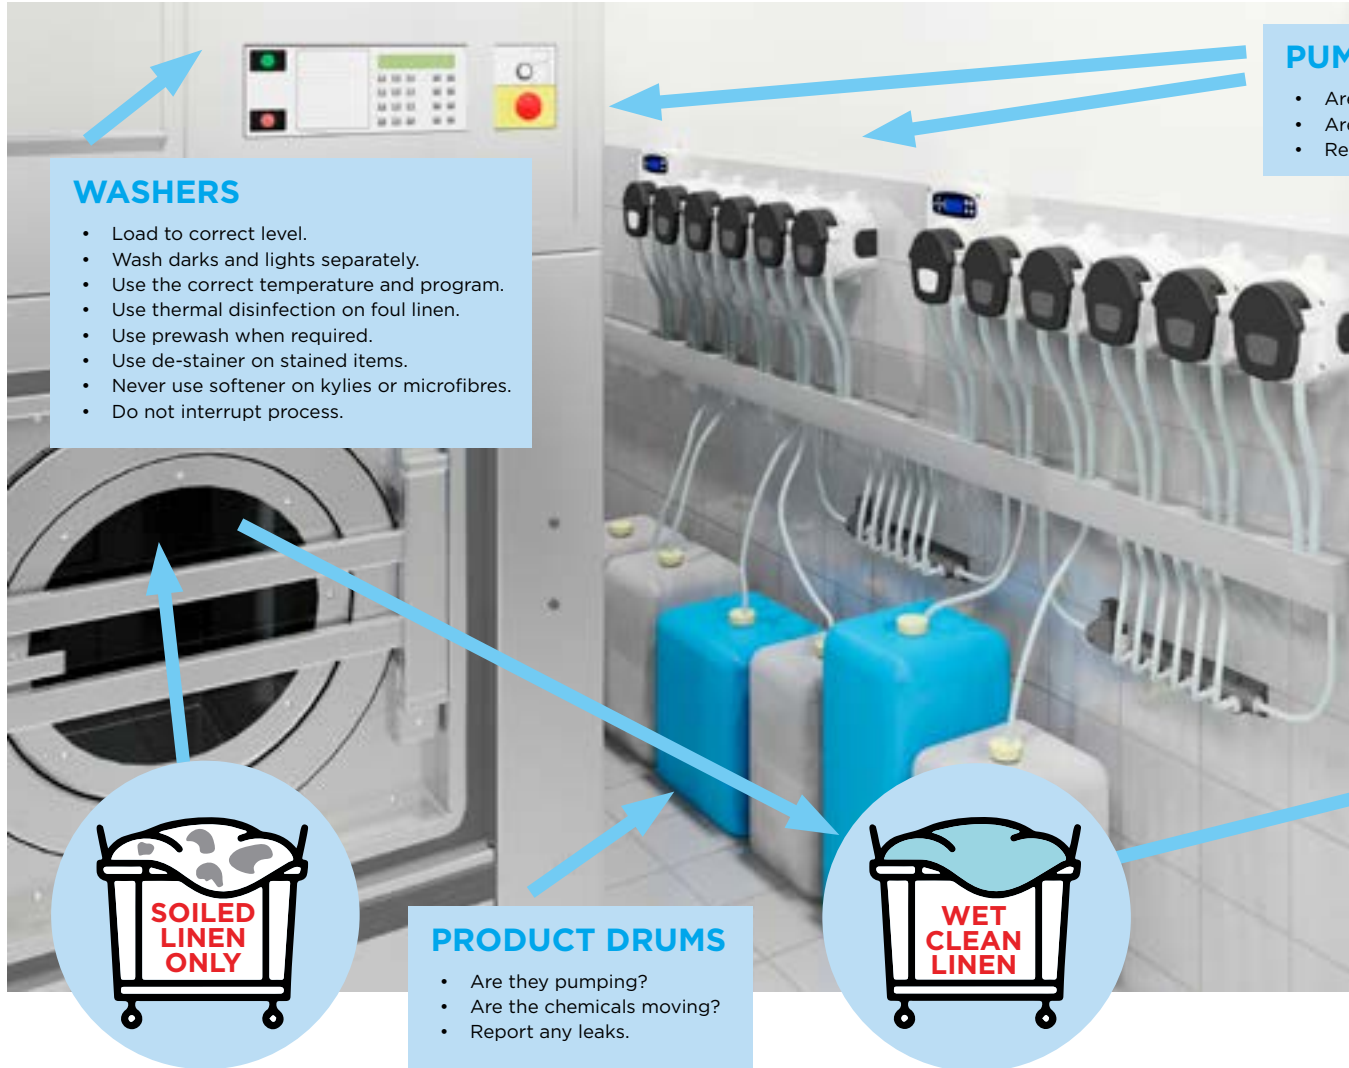

Energy Saving

By washing at 30°C rather than 60°C, a saving of around 65% (cold fill) or 70% (hot fill) is achieved in energy costs.

GOOD LAUNDRY PRACTICE

WASHERS

- Load to correct level.
- Wash darks and lights separately.
- Use the correct temperature and program.
- Use thermal disinfection on foul linen.
- Use prewash when required.
- Use de-stainer on stained items.
- Never use softener on kyliees or microfibres.
- Do not interrupt process.

PUMPS

- Are they pumping?
- Are the chemicals moving?
- Report any leaks.

PRODUCT DRUMS

- Are they pumping?
- Are the chemicals moving?
- Report any leaks.

DRYER

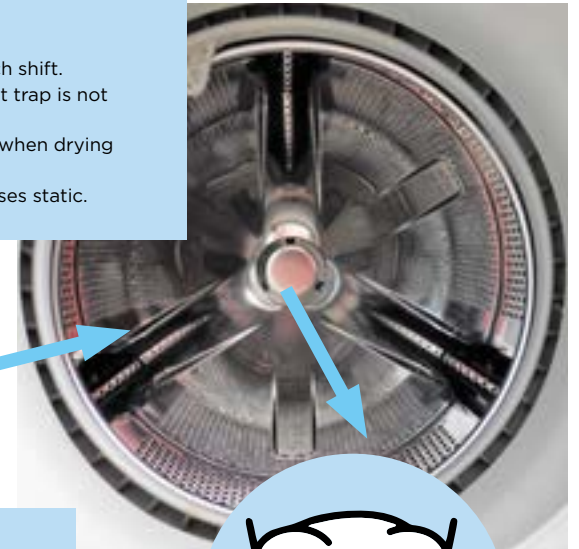

- Clean lint trap before each shift.
- It is a fire hazard if the lint trap is not cleaned regularly.
- Select cool down option when drying polycottons.
- Do not over-dry as it causes static.

LINEN

- Handle soiled linen with gloves.
- Keep soiled and clean linen in separate containers.
- Never put linen on the floor.
- Classify correctly.
- Iron or smooth and fold while warm.
- Store clean linen hygienically.

HOUSE KEEPING

- Clean all equipment, floors and machines regularly.
- Report any faults to supervisor or manager.
- Never leave hot linen over night as it can cause a fire hazard.
