SureColor SC-T3405(N) and SC-T5405

Increase productivity through ink cartridge flexibility

Introducing the SureColor SC-T3405(N) (24") and SC-T5405 (36") large-format printers. With exceptional print quality, 4-colour printing, low running costs and sleek design, it's the ideal choice for professional printers in multiple industries and sectors. From eye-catching retail promotions to highly-detailed engineering drawings, the SureColor SC-T large-format printers set new standards for reliability and quality.

Retail
Perfect for point-of-purchase (POP) promotions in busy retail environments and supermarkets, with faster print speed options and longer print runs with the new 700 ml cartridges.

Architects and engineers
High-quality printing makes the models ideal for the creation of CAD and technical documents, GIS and mapping.

On-site printing and workgroups
The flexibility and versatility of the SC-T3405(N) and SC-T5405 make them the perfect fit for on-site printing applications and workgroup printing.

Government and municipalities
For planning, project work and city management activities, the new large format printers provide reliable, high quality, durable and low cost printing.

Office users
A trim and compact design to fit even the smallest work spaces. The low total cost of ownership is ideal for business owners moving from outsourcing large format print production to in-house facilities. Networked Wi-Fi connectivity allows you to print from anywhere using a mobile device and compatible apps.

EPSON®
EXCEED YOUR VISION

Lower your costs with enhanced features

Flexibility
The use of the light-fast, water resistant pigment inks promotes borderless, short term outdoor advertising. This is ideal for graphical applications as no additional finishing is required. Our range of (110/350/700ml) pigment ink cartridges gives you complete control and flexibility when printing requirements change.

Productivity
The new 700 ml cartridges means you have the option to lower your TCO and reduce the amount of interventions during long print runs, meaning you pay less to print than you would with smaller cartons.

With the introduction of draft mode, you can now print banners and posters as fast as 24 seconds.*

Connectivity
Thanks to the ability to connect your existing Epson business inkjet printer to either the SC-T3405(N) and SC-T5405. You simply scan your A4/A3 documents and enlarge them up to A0 as you need.

Durability
You enjoy greater durability, whatever the application, thanks to the robust design of the two new models. As with other printers in the series, the SC-T3405(N) and SC-T5405 include dirt- and dust-repellent features and 2 year on site warranty cover (including PrecisionCore printhead).

SC-T3405N (no stand)
SC-T3405 (with stand)
SC-T5405 (with stand)

* 24" – SC-T3405 24 seconds
  36" – SC-T5405 36 seconds

** Wi-Fi CERTIFIED™; level of performance subject to the range of the router being used. Wi-Fi Direct may require printer software.
