Multi-functional, modular seating offers a completely flexible solution for any breakout area by creating a bespoke piece of furniture that can easily be re-sized to suit any office space. The simple, smart components of modular seating ranges can be used individually or arranged in a variety of dynamic configurations, making them ideal for employees and small groups to relax or meet informally.

## Tilly Pod

Low back

High back

---

Meeting pods are specifically designed to address modern working practices by offering that essential private area in any busy work place to accommodate working groups with exceptional comfort and practicality. High backs offer a private place for employees to sit and relax, or for teams to meet in seclusion. With optional tables and power supply, meeting pods are perfect for open space environments in offices.

# Acoustic Hubs

## Silen space 6

Meeting space

---

Privacy can be difficult to find in a modern, open plan office. From the smallest hub, which is like a telephone booth and adequate for one person, to the largest which can accommodate groups, our acoustic hubs can be adapted and customised to fit your own office requirements, creating multiple working zones in one place. The ability to create a mix of diverse workspaces and areas means that a business can create balance for its workers, thereby optimising their potential productivity and output.

---

The Flux modular shelving system epitomises the future of adaptable, modern design. Flux has a capacitor for an infinite number of layout options and shapes to help create work zones in any space to promote privacy or transparency as needed. The crisp, clean aesthetic of the black frame allows you to break up the workplace landscape while bringing together a wide range of complementary components and products – and, never compromising on design.

Hexagon

Large hexagon

---

The loss of private space and an inability to concentrate in an open plan work area has inspired the design of the Priva angles workstations which can be configured to specific needs and support individual work zones. The rich repertoire of geometric shapes can be positioned to suit defined spaces, allowing individuals to concentrate and complete focused tasks in a private space within the workplace environment.
