Handsan™

70% Alcohol-based hand disinfectant

Quick acting and highly effective, alcohol-based, gel hand disinfectant. Kills a range of bacteria, enveloped viruses and yeast. Rapidly evaporates from hands.

Passes EN 14476 against all enveloped viruses with a 1-minute contact time.

Contains 70% alcohol. Added glycerol emollient to maintain skin condition.

- Disinfects hands after washing or wherever soap and water are not readily available.
- Passes EN 1276 with a 30-second contact time. Also passes EN 1500 and EN 13727.
- Rapidly evaporates from hands without leaving a residue or odour.
- Recommended wherever food is handled, prepared or served.
- Ideal for in between patient contact in non-surgical medical care establishments.
- Minimum viscosity of 1500 cP measured using a Brookfield instrument with Spindle 3 and at 30 rpm.
- Available in a choice of pack sizes to meet a variety of requirements.

DIRECTION FOR USE:

For use on visibly clean hands only.
If hands are dirty, wash with soap and water, rinse and dry before applying Handsan.
Use sufficient product (1.5-3 ml) to ensure complete coverage.
This may vary with hand size and skin condition. (1 pump is approxmimately 0.5 ml for 75 ml pack, 1 ml for 500 ml pack and 2 ml for 1 L dispenser).

Apply to palms and spread over hands and wrists, paying special attention to cuticles and creases in skin. Rub in well; until skin is dry. This should take approximately 1 minute.

Drying hands is not necessary as product will evaporate leaving skin refreshed and sanitised.

- Not suitable for use on hands with cuts or grazes, or on damaged skin.
- Avoid spilling or splashing on clothes or fabrics.
