5. You will see an option to print a collection Label(s) to stick to your box. If you are unable to print the label, please clearly write your ID number and our address, and attach it to the box/pallet.

## On The Collection Day

Please ensure the cartridges have been removed from their individual packaging. Situate your box in a reception/goods-in/accessible area (on the ground floor if possible) ready for collection.

Please ensure that anyone the driver is likely to come into contact with, is aware of the collection, to prevent this from failing.
